Instructions For Use

Magellan™ Insulin and Tuberculin Safety Syringe

1. Select the appropriate Magellan™ Insulin or Tuberculin Safety Syringe for your procedure.

2. Open package by peeling back paper tabs and remove syringe.

3. Remove protective needle sheath.

4. Draw up medication and administer injection using an aseptic technique in accordance with your facility’s protocol.

5. Lock the safety shield using your thumb
Or
...your finger.

6. Verify locked position through audible and tactile “click”. Locked position will completely encase needle.

7. Once the shield is locked, immediately dispose of syringe in an approved sharps disposal container.
